44" All-Terrain Deck

Equipped with swing blades, the 44" All-Terrain Deck is perfect for taming trails, ditches, and reclaiming overgrown areas.

- 44" cutting width
- 2-Spindle counter rotating design
- Hydraulic height and angle adjustments controlled by proportional switches
- Four swing blades absorb impact when contacting solid objects
- 7-gauge laminated steel deck for long-lasting durability
- Flat-free front single caster wheel

p/n

1060004

61" All-Terrain Deck

Power through rough terrain, tackle slopes and roadsides and reclaim overgrown areas.

- 61" (3-spindle swing blades)
- Counter rotating right hand spindle
- 7-gauge laminated steel deck
- Six pivoting swing blades forged and heat-treated for exceptional, long-lasting sharpness and durability
- Proportional fingertip hydraulic deck height and angle adjustment with float position to follow ground contour
- Flat-free caster tires provide ability to follow contour of the ground

p/n

1060005

Power Angle Broom

Ideal for year-round debris removal from sidewalks and recreational areas.

- 48" straight, 44" angled broom width
- Belt-driven hydraulic pump to allow for rotational speed control and reversing rotation of broom
- Angle left, right or straight with the touch of a button
- High-performance drive motor by Eaton
- Unique high quality wear-resistant polyester wafer bristle design for efficient sweeping
- Adjustable caster wheels

p/n

1060003

Snow Blower

Quickly and efficiently clear snow from sidewalks, driveways or anywhere there’s snow.

- 44" width
- 2-stage, belt driven
- Hydraulically-adjustable chute rotation and electrically-adjustable chute angle.
- Raise, lower and float positions controlled by proportional switch

p/n

1060002

Drop Spreader

Make quick work of sidewalks and pathways, with precise coverage drop from 30" to 36" spread width.

- Coverage pattern is easily adjusted from 30" to 36"
- 2.5 cu ft, 350-lb capacity
- Variable-speed control
- Pair with the Snow Blower, V-Plow, Straight Blade, or Power Angle Broom to complete two tasks at once
- Requires Rear Attachment Mount (p/n 2520003), sold separately

p/n

2530002

Spray Tank Kit

Choose a 4' wide spray pattern brine boom or an 8' wide spray pattern chemical boom—or both—to suit your needs. The brine boom ensures thorough coverage for deicing applications, while the chemical boom is ideal for pesticides, herbicides and liquid fertilizers.

- 25-gallon tank with sump
- Remote on-off control
- Adjustable boom height
- 4-gpm pump
- Includes tank, pump, regulator, wire harness and hand wand kit
- Choose 4' wide spray pattern brine boom, 8' wide spray pattern chemical boom, or both
- Hypro multi-stream nozzles
- Requires Rear Attachment Mount (p/n 2520003), sold separately

4' Wide Spray Brine Boom

V-Plow

Move snow and light aggregate quickly and efficiently.

- 50" blade width (44" width in V-position)
- Can be angled left, right, scoop or V-position, or used as a straight blade with easy hydraulic adjustment
- Adjustable depth guides to modify blade height
- Hydraulic lift arm, controlled by proportional switch, allows blade to float and follow ground contour or apply down pressure for scraping
- Cutting edge features adjustable trip tension
- Adjustable skid shoes to modify blade height
- Replaceable hardened steel wear edge and shoe assembly
- Optional accessory snow flap (shown)
- Optional accessory side wing extension kit increases blade width to 60" (52" width in V-position)
- Additional accessories for the V-Plow are shown on pages 10 and 11

p/n

1060000

V-Plow - Shown with Snow Flap Kit (p/n 2500725)

Straight Blade

Handle snowbound walkways and light-duty dirt and gravel with ease.

- 50" blade width (44" width angled)
- Can be angled left, right or used as a straight blade with easy hydraulic adjustment
- Adjustable depth guides to modify blade height
- Hydraulic lift arm, controlled by proportional switch, allows blade to float and follow ground contour or to apply down force for scraping
- Cutting edge features adjustable trip tension
- Replaceable hardened steel wear edge and shoe assembly
- Optional accessory snow deflector (shown)
- Optional accessory extension kit increases blade width to 60"
- Additional accessories for the Straight Blade are shown on pages 10 and 11

SWITCH > ATTACHMENTS

Material Bucket

Handle a wide range of materials, from gravel to mulch, with precision and control. Compact design ensures maneuverability in narrow spaces without sacrificing power or capacity, making it ideal for landscaping, construction and property maintenance projects.

- 44" width; maneuvers in narrow spaces
- 9-1/2" ground clearance in raised position
- 4-cubic foot capacity
- Heavy-duty hardened steel cutting edge, cylinder guard and pivot point grease zerks
- Versatile material handling
- Hydraulically-controlled lift and tilt
- Hydraulic lift arm controlled by proportional switch allows bucket to float and follow ground contour or apply down pressure for scraping

p/n

1060011

Material Pusher

Whether you're moving snow, smoothing rough terrain, grading driveways, leveling construction sites or spreading gravel and topsoil evenly, our material pusher ensures consistent results with minimal effort. Engineered for durability and ease of use, it's the go-to solution for a wide range of tasks, making your job easier and more efficient.

- 44" width; maneuvers in narrow spaces
- Rotates 90-degrees to change from pulling to pushing material
- Adjustable shoes
- Dual cutting edges
- Quick and easy attachment
- Hydraulically-controlled lift and tilt
- Hydraulic lift arm controlled by proportional switch allows material pusher to float and follow ground contour or apply down pressure for scraping

All-Weather Cab

Say goodbye to wet, frozen controls and be protected from the elements with the All-Weather Cab for the Switch Compact Tool Carrier. Our all-weather enclosure shields you from harsh elements, keeping you dry and comfortable, even in the toughest conditions.

- Effortless installation and removal
- Convenient access and exit
- Enhanced 360-degree visibility from all angles
- Maximum visibility through large, durable clear vinyl side panels and hardened front acrylic window

p/n

2950000

Windscreen Kit

The Altoz Windscreen Kit adds a simple layer of comfort for the operator by reducing direct wind exposure while operating. This low-profile screen helps cut down on wind and light debris during operation--especially useful on cooler days or when working at faster speeds.

- Low-profile screen reduces direct wind exposure
- Helps deflect light debris for added operator comfort
- Maintains clear visibility with minimal obstruction
- Easy to install and remove as needed

p/n

2520000

Rear Attachment Mount

Engineered for easy installation, the Rear Attachment Mount seamlessly integrates with the Switch, providing a sturdy platform for mounting multiple attachments. From drop spreaders to sprayer kits, rear weight box and more, the Rear Attachment Mount is designed to accommodate a range of attachments and accessories, ensuring that the Switch remains adaptable to evolving landscaping and maintenance needs.

- Easy installation
- Versatile compatibility - designed to work with multiple attachments
- Heavy-duty steel
- Powder-coated for durability

TerraFlex™ Switch Tracks

TerraFlex Tracks are engineered to deliver superior traction, stability, and a smooth ride—even in the most demanding environments. Whether you're navigating rugged terrain, muddy fields or uneven job sites, we've got the tread pattern to match your needs.

TerraFlex T-Tread Pattern

Our T-tread is a balanced pattern designed specifically for the Switch Tracked Compact Tool Carrier. A combination of traction and durability makes this pattern suitable for a wide range of applications and terrain. It mitigates track wear with fewer edges that prolongs the life of the track. The angled design keeps dirt, mud and debris cleared from the track so that the machine maintains consistent traction.

- Minimize ground damage while turning
- The "T" pattern offers a smooth ride
- The perfect choice for applications where protecting the ground is a priority.

TerraFlex AT Tracks

The Z-Lug tread pattern is intended for applications that require extra traction. The high count of edges molded into this pattern creates more friction between the track and the ground. This provides better handling in specific situations such as when working on steep slopes, snow or ice. If maximum traction is needed, we recommend choosing a Z-Lug pattern for your equipment.

- Great for mixed or firm terrain
- Enhanced lateral stability
- Reduced vibration for operator comfort

Rear Weight Box

This accessory is your key to stability and performance. Engineered for versatility and durability, this accessory enhances the traction and balance of the Switch Compact Tool Carrier, ensuring optimal maneuverability and control. When you need to tackle heavy loads the rear weight box provides space to add additional weight to maintain stability and maximize traction. Install easily and built with rugged construction.

- Dimensions 30" x 8" x 12" deep
- Provides 1.7 cubic feet
- Easy manual dump
- Durable, powder-coat painted finish
- Requires Rear Attachment Mount (p/n 2520003), sold separately

p/n

2500795

Trailer Mover

The Altoz Switch Trailer Mover is ideal for maneuvering trailers and implements easily and quickly at work or home. With 360-degree visibility and tight-turning capability, the Switch, combined with the Trailer Mover, simplifies the task of moving trailers with precision and ease.

- Adjustable receiver hitch positions
- Accepts 2" ball mount trailer hitch (not included)
- Installs easily
- Durable, powder-coat painted finish

p/n

2500796

Strobe Light Kit

The ultimate solution for enhanced safety and visibility in any working environment! Designed to seamlessly integrate with the Switch Compact Tool Carrier, this strobe light kit ensures that you stand out in low-light conditions, alerting others to your presence with its powerful, attention-grabbing flashes. Gain peace of mind and maximize safety for both operators and bystanders.

p/n

2500773

Operator Platform Cover

The Operator Platform Cover is designed to restrict the openings in the operator platform, preventing brush, branches or twigs from protruding through. This keeps the operator more comfortable and safer when operating in difficult terrain.

- Installs easily
- Durable, powder-coat painted finish

p/n

2500790

Hand Warmer Kit **NEW**

Designed to easily attach to the Switch compact tool carrier, the hand warmer kit keeps your hands warm and nimble, even in the coldest conditions. It's the perfect accessory for operators who refuse to let cold slow them down. Kit includes all necessary hardware for installation.

p/n

2500774

Wide Track Front Suspension Arms **NEW**

The Wide track front suspension arms are engineered to be easily installed on the Switch compact tool carrier. By utilizing these suspension arms, you widen the track stance to 52", thereby enhancing its stability and making it more capable of handling challenging tasks.
